Pro Subscription Terms

Version of 10.11.2026

This is a translation for convenience. The Russian text is legally binding.

These terms apply to the Subscription to the SAYRIL program, that is, the SAYRIL Pro and SAYRIL Corporate Pro Licenses, and form part of the contract concluded under the Offer, together with the License Agreement and the Refund Policy. Licensor: Kadurin Aleksandr Anatolevich, INN (Taxpayer ID) 111603182707. These terms set out the rules for the paid months of the Subscription; refunds are governed by the Refund Policy, and the use of the Program by the License Agreement. These terms do not limit the consumer rights established by law.

Terms are used in the meanings defined in the Offer and in the License Agreement. For SAYRIL Corporate Pro, the number of Devices, the transfer of a License to another Device and the price of a Seat are determined by the section “Specifics for Organizations” of the Offer.

1. Subscription

1.1. SAYRIL Pro is a License of a User for one calendar month: continuous access to the Subscription features throughout the paid month for a fee paid for each month. During the paid month, everything included in SAYRIL Base works, as well as transcription of audio and video, meeting recording and speaker separation, the dictionary (including a shared one), voice commands, text editing by the language model, program profiles, access for other programs on this Device, and the features that the Licensor has included in SAYRIL Pro in versions released before the end of the paid month. The SAYRIL Corporate Pro License is granted to an Organization for one calendar month for the paid number of Seats and includes the SAYRIL Pro features and speech recognition via an office server.

1.2. The list of Subscription features is shown on the checkout page of the Order before payment.

2. Price and Order

2.1. One calendar month of SAYRIL Pro costs 690 ₽. The price of one SAYRIL Corporate Pro Seat per month depends on the number of Seats in the Order and applies to all of its Seats: 690 ₽ with 1–10 Seats, 590 ₽ with 11–30 Seats, 490 ₽ with 31 Seats or more. There are no discounts. The Subscription is granted only for one calendar month: several months cannot be paid for at once.

2.2. The price is fixed in the Order for the period specified in the Offer. A price change does not affect months already paid for.

2.3. Before payment, the checkout page of the Order shows the rule for the start and end of the month being paid for and the estimated dates, the price and the number of Devices, and, for SAYRIL Corporate Pro, also the number of Seats, the price per Seat and the amount of the Order.

3. Start and end of the month

3.1. The first paid month starts at the moment the License is granted after payment is confirmed, even if the Program has not yet been installed or activated.

3.2. A month ends on the same date of the following month and at the same time, Moscow time. If the following month has no such date, the month ends on the last day of the following month. Subsequent months are again counted from the original date: a month that started on 31 January ends on the last day of February, and the one after it on 31 March.

3.3. The moment of expiry itself is not included in the paid time: at that moment the next paid month starts or, if it has not been paid for, the Subscription ends.

3.4. The exact moments of the start and the end are recorded when the License is granted and are shown in the Personal Account in Moscow time.

3.5. The term is the same for all of the Licensee's Devices and, for SAYRIL Corporate Pro, for all Seats of the Order.

4. Devices and activation codes

4.1. SAYRIL Pro is valid on the same two Devices as the other personal Licenses of the Personal Account: buying SAYRIL Pro does not increase the number of Devices. A License is transferred to another Device under clause 2.4 of the License Agreement. SAYRIL Corporate Pro is valid for the paid number of Seats, for each Seat on no more than two Devices of one Organization Employee.

4.2. Each paid month has its own activation code for each Device, with a start date and an end date. The code of the next month takes effect only from its start date and does not extend the current term.

5. Working offline

5.1. After Activation, the Subscription works without the internet throughout the paid month, without interim checks.

5.2. The dates in the activation code are recorded in Coordinated Universal Time (UTC) to the day, so the Program works under the Subscription until the end of the UTC day on which the paid month ends (until 03:00 Moscow time). The Program may be used during these hours without additional payment; they are not part of the paid month and do not affect the refund amount. This rule does not apply after a refund.

5.3. If the Device's clock has been set back or was running fast, the Program may consider the term to have expired earlier; in this case, the correct time must be set on the Device.

6. Renewal

6.1. The Subscription is renewed by paying for the next month on the Website, with a new Order. SAYRIL Corporate Pro is renewed by an Order of the same Organization for the same number of Seats: such an Order continues the same License. An Order for a different number of Seats is a new License with its own term.

6.2. If the next month is paid for before the current one ends, it starts immediately after the current one ends. No more than one month can be paid for in advance; the same month cannot be paid for twice. An excess payment is refunded under the Refund Policy.

6.3. If the next month is paid for after the current one has ended, the new month starts at the moment the License is granted after payment is confirmed, and a new original date is counted from that moment. There is no need to pay for the break.

6.4. Failure to pay for the next month does not create a debt: the Subscription ends.

6.5. For the Program on a Device to start working in the new month, it needs the code of that month. If a license key is saved in the Program and there is an internet connection, the Program obtains the already paid code on its own (clause 5.5 of the License Agreement). The code can also be obtained in the ways listed in clause 2.5 of the License Agreement, including in the Personal Account as a license file. Until the new code is received, the Program works according to the term of the previous one.

6.6. If no reminder about the end of the term has arrived, this neither extends nor shortens the term.

7. After the Subscription ends

7.1. When the time under clause 5.2 has expired, the Program does not work under the Subscription. If the Licensee has a Perpetual License (SAYRIL Base or, for an Organization, SAYRIL Corporate), it remains valid in any version of the Program: its features work.

7.2. Recordings, transcriptions, files, settings and history remain on the Device; they can be viewed, copied and deleted after the Subscription ends as well.

7.3. If there is no Perpetual License, the Program does not record speech or insert text until the Subscription is renewed or a Perpetual License is acquired.

8. Perpetual License during the Subscription, and refunds

8.1. A Perpetual License may also be acquired while a Subscription is active. The remaining part of the Subscription is not credited toward the price of the Perpetual License.

8.2. The purchase, end and refund of the Subscription do not affect the Perpetual License, and a refund for the Perpetual License does not affect the Subscription.

8.3. Money for the Subscription is refunded in the cases provided for by law under the Refund Policy: if the law gives a consumer the right to withdraw from a paid month, the part of the fee for the remaining paid time is refunded, and for a month that has not yet started, the full amount paid; for SAYRIL Corporate Pro, money is refunded in the cases set out in clause 2.4 of the Refund Policy. Each monthly payment is accounted for separately.

8.4. When a refund demand is satisfied, the rights for the paid month terminate as of the moment the demand was received, and the activation codes of that month are revoked. The Program may keep working until it receives the revocation list (clause 2.12 of the License Agreement), but the Program may not be used under the Subscription after a refund.

9. Auto-renewal

As of the date of this version, auto-renewal is not enabled on the Website: the Subscription is renewed only manually, by a new payment, and there are no automatic charges. If auto-renewal is enabled, its terms will be published on the Website before it can be turned on, and it is turned on only with a separate checkbox that is not pre-checked.
